

fofolino

Fine Baby Muslin Squares...

...bringing a little luxury to the everyday essential as:

Comforter & Companion

Loyal and snuggly, our comforting cotton Fofolino will soon become your baby's best friend.

Bedtime Spill Catcher

For those night-time spillages, simply fold your Fofolino, stretch across the mattress beneath your babies' head and tuck in either side. An instant and easily replaceable sheet to protect against a little reflux or milky spillage.

Stroller Cover

Create an instant curtain whilst out and about, shielding your little one from the light and bustle of outside.

Burpy Cloth

Minimize mess and protect your favourite shirt by throwing your muslin cloth over your shoulder after feeding time.

Light Blanket

For those warm summer days when a blanket is too hot, your Fofolino makes for the perfect lightweight nap time throw-over.

Swaddle Cloth

Wrap your newborn in love with your favourite Fofolino. A technique as old as time, swaddling is a tried and tested way to make your baby feel snuggly and secure.

Nursing Cover

Providing mum and baby with some privacy, your Fofolino can be used as a cover up when the need to nurse arises.

After Infancy

Although uses listed are associated with baby care, that doesn't mean to say our cloths won't be useful once they've grown up. Many of our customers have noted the versatile and varied uses of their Fofolino's that fall beyond looking after a little once. Some of our favourite ideas include filtering wine, maturing cheese, face-washing flannels, crystalware and shoe polishing, and dusting furniture. It's time to get creative with your Fofolino!
